ENVIRONMENT AND DEVELOPMENT
Fourth session
New York, 2 March-3 April 1992
Agenda item 2 (c) of plenary

PREPARATIONS FOR THE UNITED NATIONS CONFERENCE ON ENVIRONMENT
AND DEVELOPMENT ON THE BASIS OF GENERAL ASSEMBLY RESOLUTION
44/228 AND TAKING INTO ACCOUNT OTHER RELEVANT GENERAL ASSEMBLY
RESOLUTIONS: CROSS-SECTORAL ISSUES

Protection and promotion of human health

Text submitted by the Chairman on the basis of negotiations
on document A/CONF.151/PC/100/Add.5

Corrigendum

1. After paragraph 26, insert the following:

27. Governments should implement, as a matter of urgency, in accordance with country specific conditions, measures to ensure that women and men have the right to decide freely and responsibly on the number and spacing of their children, to have access to the information, education and means, as appropriate, to enable them to exercise this right in keeping with their freedom, dignity and personally held values.

28. Governments should take active steps to implement programmes to establish and strengthen preventive and curative health facilities, which include women-centred, women-managed, safe and effective reproductive health care and affordable, accessible, responsible planning of family size and services, as appropriate in keeping with freedom, dignity and personally held values. Programmes should focus on providing comprehensive health care, including pre-natal care, education and information on health and responsible parenthood and should provide the opportunity for all women to breast feed during the first four months (post-partum). Programmes should fully support women's productive and reproductive roles and well-being, with special attention to the need for providing equal and improved health care for all children and the need to reduce the risk of maternal and child mortality and sickness.

2. ReNUMBER the remaining paragraphs accordingly.
